

Dimas Rizky Ramadhani

South Tangerang, Indonesia | +628979117924 | [linkedin.com/in/dimas-rizky-ramadhani-026450276](https://www.linkedin.com/in/dimas-rizky-ramadhani-026450276) | dimasrizky.ramadhani011@gmail.com

Fresh Graduate of the Data Science Study Program at the Sumatra Institute of Technology with expertise focused on statistical analysis, predictive modeling, and structured data processing to support data-driven decision making. Has experience in validating and managing official data through an internship at the Central Statistics Agency (BPS) in Bandar Lampung City, as well as academic projects based on analysis and modeling. Generates data-driven insights through the processing and analysis of complex data using Python, R, SQL, and Tableau.

Work Experiences

Deep Learning Lab Assistant – *Institut Teknologi Sumatera* Sep 2025 – Dec 2025

- Assist and evaluate the implementation of Deep Learning practicums by implementing Python-based models (CNN, RNN, Transformer, GAN) and end-to-end processes ranging from data preprocessing, architecture design, hyperparameter tuning, to model performance evaluation. Assist in code troubleshooting and ensure a systematic understanding of the model development process.

Spatial Data Analysis Lab Assistant – *Institut Teknologi Sumatera* Feb 2025 – Mei 2025

- Providing presentations and supporting the implementation of Spatial Data Analysis practicums, including preparing 10 practicum modules and assisting a group of students in processing major assignments to produce publications at national seminars. In addition, evaluating practicum results and developing learning modules to ensure that activities run in a structured manner and are in line with learning outcomes.

Badan Pusat Statistik (BPS) Kota Bandar Lampung – *Bandar Lampung* Jul 2024 – Agu 2024

- Completing the compilation and validation of regional financial balance sheet data for regional economic statistics reporting through cross-unit coordination, including the General Subdivision (budget planning), Social Statistics (population data), Production Statistics (agricultural data), and the IPDS Subdirectorates in statistical information system management.
- Completing data input, verification, and reconciliation using the official BPS system. This involves producing regional statistical publications, including the Publication of *the Complete Results of the 2023 Agricultural Census for Bandar Lampung City* and the final report on *Linear Regression Analysis in Analyzing the Impact of Diarrhea in Lampung Province in 2022*.

Organizational Experience

Himpunan Mahasiswa Sains Data (HMSD) Adyatama ITERA Feb 2024 – Feb 2025

Head of Internal Department

- Lead and coordinate internal activities of the Adyatama ITERA Data Science Student Association (HMSD) together with 2 division heads and 10 staff members, including planning, implementation, and evaluation of work programs.
- Manage the implementation of internal activities for graduation ceremonies (April & July) and sharing sessions for students related to academic and non-academic aspects, as well as spiritual programs. Such as organizing interfaith worship services, and ensuring that activities run smoothly and sustainably.
- Able to coordinate with approximately 600 Data Science students, association administrators, and lecturers in an effort to increase participation in activities organized by the internal study program.

Kontes Robot Terbang Indonesia (KRTI) 2023 Aug 2023 – Sep 2023

Disciplinary Committee Coordinator

- Coordinating the supervision of participants and supporters at a national event attended by 102 finalist teams from 40 universities, covering 4 competition divisions (Racing Plane, Fixed Wing, VTOL, and Technology Development). Ensuring that activities run safely and smoothly in accordance with Standard Operating Procedures (SOP) for the committee, participants, and related agencies during the competition organized by BPTI–Puspresnas Kemdikbudristek at the Pangeran M. Bunyamin Air Force Base, Lampung.

Pemilihan Umum Raya (PEMIRA) KM-ITERA 2023 Sept 2023 – Nov 2023

Chief Executive

- Lead and coordinate the committee together with the secretariat, 6 division heads, and 13 subdivisions with a total of 126 staff members to ensure that the main tasks and functions run effectively. By aligning communication and cooperation among 41 Student Associations (HMPS) representing 18,454 active

students in the implementation of the 2023 KM-ITERA Student Council Election.

- Coordinating with 2 pairs of student presidential candidates and faculty members to ensure the election process is conducted in accordance with the principles of Direct, General, Free, Fair, and Honest (LUBER JURDIL), resulting in a voter turnout of 8,397 active students at the Institute of Technology of Sumatera.

Education Level

Institut Teknologi Sumatera – Lampung Selatan, Indonesia

Sep 2021 – Des 2025

SI Sains Data, 3.07/4.00

- Complete relevant courses, such as: Big Data Analysis, Statistical Computing, Time Series Analysis, Multivariate Analysis, Sample Survey Methods, Data Mining, Data and Information Visualization, Business Intelligence.
- Produce a final project entitled “Estimating Poverty Levels in Bengkulu Province in 2024 Using the Small Area Estimation (SAE) Method with the Empirical Best Linear Unbiased Predictor (EBLUP) Approach”.

Other Experiences

-
- **Soft Skill:** Analytical & Critical Thinking, Leadership, Effective Communication, and Problem Solving.
 - **Hard Skills:** Microsoft Excel, Microsoft Word, PowerPoint, Python, Geographic Information System Software (Qgis), R Programming, and Tableau.
 - **Project (2025)** : Planning and Implementation of a Large-Scale Business Intelligence System on the Netflix Platform.
 - **Project (2024)** : Detection and Calculation of Beach Waste Using RT-DETR.
 - **Project (2024)** : Analysis of IMDB Movie Dataset Sentiment Using Logistic Regression and Naive Bayes Algorithms.
 - **Project (2024)** : Spatial Classification of Land Cover in Metro Cities Using the Random Forest Algorithm.
